**Pioneer Park Playground Equipment –  
Discussion – Motion**

## **New Business 1. Pioneer Park Playground Equipment**

June City Staff were made aware of playground equipment that needed replacement due to wear and tear. The playground equipment is purchased through one vendor that covers the Washington, Oregon, and California regions. Back in August, we were informed of the cost of replacement parts, and when asked additional questions about installation, there was no response.

In September, City Staff wrote to the vendor and got a response back to the question of replacement. Replacing the broken equipment costs \$7,417.29, and the climbing net alone is \$3,350.00 to replace.

City Staff did ask about the potential for grants to reduce the cost. While playground grants are common, they are mainly for installing new playground equipment, not replacement from wear and tear.

New Playground equipment to replace the entire unit, ranging from 5 – 12 years old, costs between \$13,000 and up to \$89,512.00. If City Staff were to find a grant of \$10,000 for new playground equipment and reach out to local businesses to help with the purchase, we could potentially have a completely new playground in Pioneer Park.

With a Repair and replacement account in place, the City does have a strategy on how much needs to be saved per year, so in the future, funds are available for repairs and replacement parts without sacrificing the current project. Pioneer Park is getting three new benches, with the old benches being donated, and the Park Commission is working on the new "Welcome to Tangent" sign.

**Would the City Council like City Staff to look into replacing the entire playground (consensus), or should City Staff look into replacing the current existing parts for \$7,417.29 (motion)?**

**Utility Bill Advertising – Discussion –  
Motion**

## **New Business 2. Utility Bill Advertising**

The City of Tangent each month prints out utility bills and mails to residents with the newsletter and the Tangent Together newsletter. It was brought to the City Staff's attention that another city has business advertisements on their utility bills.

Allow advertisements on the utility bill is not an issue as long as the City develops policies that are fair for all interested parties wanting to advertise. This includes who is allowed to advertise, frequency limits, and fees.

**The City Council may give staff the okay to research and develop such policies to be introduced at a later meeting (consensus) or decide to prevent any advertisement (motion.)**
